

**Innovative  
Teaching  
Grant  
Application Is  
Open**

**Rockland Community Foundation** is pleased to announce the 2023-2024 Innovative Teaching Grant Program. Funded through a grant from Verizon, this program recognizes teachers engaged in exciting and innovative methods of instruction and provides funds to enable teachers to carry out instructional activities in Rockland County K-12 schools. Focus and favor will be given to grant applications that align with STEAM (science, technology, engineering, art and mathematics) and those that seek to incorporate immersive teaching experiences.

**Who should apply?**

Individual teachers, groups of teachers, or schools may apply. Note: Multiple teachers from the same school may apply for individual grants; teachers may apply for individual grants as well as be included for consideration in group applications or wide area programs. Teachers who have received grants in prior years are eligible to reapply. Deadline for all applicants is June 19, 2023.
